

Our goal is to save all 306 acres of the Dorothea Dix Campus for a  
**World Class Destination Park**  
because it is the right thing to do for our children, our economic  
vitality, and to preserve our quality of life.

**It is a plan that the people of this state support.**

because the people overwhelmingly want to preserve all 306 acres as a destination park for generations to come.

**It is financially sound.**

The Friends of Dorothea Dix Park plan raises money now and even more so in the future.

This plan encourages development outside the 306 acres. We must preserve all 306 acres as a great destination park.

**We all work together in an open political process.**

The Friends of Dorothea Dix Park plan provides tremendous opportunity to all of its neighbors and stakeholders. When we all work together we will preserve all 306 acres for a great destination park for us to enjoy and to pass on to our children and grandchildren.

**Help us preserve this great open space for all of North Carolina!**

- Contact your legislators and tell them to “Preserve **All** of Dorothea Dix Campus”
- Contact your friends around the state and ask them to help too.
- Visit [Dix306.org](http://Dix306.org) or contact [Info@Dix306.org](mailto:Info@Dix306.org) to find out how else you can help.
